Ahmedabad, Gujarat, India

### EXPERIENCE

#### AI/ML Developer

Work24

08/2026 - Present

- Working on **Hyphen OI**, a live AI-powered platform using LLMs and AI APIs.
- Developing LLM response generation, optimization, and conversational flows for accurate, natural interactions.
- Building **AI chat**, voice, and **voice-to-voice** capabilities to enhance real-time user interactions.
- Contributing to **Generative AI**, **Conversational AI**, Voice AI, and Python-based application development.

#### MERN Stack Intern

WebEarl Technologies

03/2026 - 08/2026

- BookBuzz**: Built backend APIs for a live academic book marketplace covering auth, books, cart, purchases, trade-ins, students, and publishers.
- PropertyHub**: Built APIs for a real-estate platform with listings, documents, amenities, reviews, shortlists, nearby places, and advanced search.
- Shoply**: Built backend services for a multi-tenant restaurant POS system, including menus, orders, billing, payments, QR ordering, and reporting.
- Built and integrated REST APIs using Node.js, Express.js, MongoDB, Mongoose, Sequelize, and MySQL.

#### Graphic Design Intern

Art O Print

11/2025 - 02/2026

- Designed **medical product** packaging and print-ready box layouts based on client specifications.
- Created layouts with accurate **dimensions**, **typography**, **alignment**, and visual consistency.

#### Node.js Intern

CommunitiesHeritage Limited (CHL Group)

05/2025 - 10/2025

- CHPL Food**: Developed backend APIs for a multi-tenant food ordering platform, including menus, orders, billing, payments, and reporting.
- CHPL VI**: Developed APIs and analytics for a call tracking and logging platform, including RBAC, timezone handling, and tenant-specific reporting.
- Built scalable REST APIs using Node.js, Express.js, Sequelize ORM, and MySQL, working with GitLab in an Agile environment.

### PROJECTS

#### RecruitIQ – AI Recruitment Platform | React, Node.js, PostgreSQL, Prisma, LiveKit

- Built a full-stack **AI hiring platform** where companies post jobs, screen and shortlist candidates, and publish interview slots.
- Designed a **hybrid screening engine** blending deterministic skill, experience, and education scoring with **LLM** analysis, keeping demographic data out of prompts.
- Developed **AI voice interviews** over **LiveKit** with **Deepgram** STT/TTS, driven by a stage-based state machine and auto-generated reports.
- Implemented race-safe **interview slot booking**, automated **Brevo** email notifications, and secure **JWT** authentication.

#### KnowledgeVoice – AI Knowledge Base Assistant | React, Express, MongoDB, OpenRouter

- Built a **RAG**-based assistant that answers questions from uploaded PDF, DOCX, and TXT files with **cited sources**.
- Implemented a pipeline for text extraction, chunking, and **embeddings** with strict per-user data isolation in MongoDB.
- Added **voice Q&A** with live transcription and **Deepgram** text-to-speech, plus JWT auth with email-OTP verification.

#### Stock Prediction Using Machine Learning | Django, Python, Scikit-learn

- Developed a **Django** and Python-based stock prediction application using machine learning for price forecasting.
- Integrated **Yahoo Finance** to fetch historical market data for model training.
- Implemented **Scikit-learn** ML algorithms and **Plotly visualizations** to display predicted stock trends.

### EDUCATION

#### Bachelor of Computer Science and Technology

LJ Institute of Engineering and Technology, LJ University

2022 - 2026

CGPA

7.98 / 10.00

### SKILLS

- Programming Languages**  
Python, Java, JavaScript
- Frontend & Backend**  
HTML, CSS, React.js, Node.js, Express.js, Django, .NET
- Databases & ORM**  
SQL, NoSQL, Sequelize ORM
- Tools, Cloud & AI**  
Git, AWS, Postman, Power BI, Machine Learning, Generative AI, Data Science

### CERTIFICATE

- Back-End Development with .NET – Microsoft
- Building Generative AI-Powered Applications with Python – AWS
- AWS Cloud Technical Essentials – AWS
- Postman API Fundamentals Student Expert – Postman
- Exploratory Data Analysis for Machine Learning – IBM
- Machine Learning with Python – IBM
- HTML, CSS, and JavaScript for Web Developers – Johns Hopkins University
- Database Design and Basic SQL in PostgreSQL – University of Michigan
- Inheritance and Data Structures in Java – University of Pennsylvania
- Introduction to Java – LearnQuest
- Introduction to Psychology – Yale University

### LANGUAGES

- Gujarati** – Native Proficiency
- English** – Professional Proficiency
- Hindi** – Conversational Proficiency
- Spanish** – Beginner
